FV024.1200TWA/PW	1200	550	540/400	560	15	1190

**Baggio** - A design inspired by the proximity of the sea and the coast. A mixture of colour and timber united by a curve reminiscent of the hull of a yacht. Four generous drawers and a deep basin manufactured of Polymarble from one of Europe's leading manufacturers.

The curves of the cabinet compounded by the internal curve of the basin create a significant design impact to enhance the most unique of bathrooms.

Baggio is available in two sizes, 900mm and 1200mm wide, and is manufactured in five Reconstituted Wood Veneers, with white lacquer as a highlight feature.

**The Photography Features:**  
**Hansa Canyon Basin Faucet (HC7612201)**  
**Forme Storage Pods (FV025.500TWA)**
